

# Don't Be Denied

Neil Young / Widespread Panic

||: A/G      G      :||

D      A      D      A

D                                  A  
When I was a young boy

D                                  A  
My mama said to me

A7                                  Em7  
Your daddy's leavin' home today

A7                                  Em7  
I think he's gone to stay

D                                  A  
We packed up all our bags

D                                  A  
And drove out to Winnipeg

||: A/G      G      :||

D                                  A  
When we got to Winnipeg

D                                  A  
I checked in to school

A7                                  Em7  
I wore white bucks on my feet

A7                                  Em7  
When I learned the golden rule

D                                  A  
The punches came fast and hard

D                                  A  
Lying on my back in the school yard

||: A/G      G      :||

D                                  A  
Don't be denied

D                                  A  
Don't be denied

A7                                  Em7  
Don't be denied

A7                                  Em7  
Don't be denied

D                                  A  
Don't be denied

D                                  A  
Don't be denied

||: A/G      G      :||

D                                   A  
Well pretty soon I met a friend  
D                                   A  
He played guitar  
A7   Em7  
We used to sit on the steps at school  
A7                                   Em7  
And dream of being stars  
D                                   A  
We started a band  
D                                   A  
We played all night

||: A/G           G       :||

D                                   A  
Don't be denied  
D                                   A  
Don't be denied  
A7   Em7  
Don't be denied  
A7   Em7  
Don't be denied  
D                                   A  
Don't be denied  
D                                   A  
Don't be denied

||: A/G           G       :||

||: D            A       :|| 4x

D                                   A  
The businessmen crowded around  
D                                   A  
They came to hear the golden sound  
A7   Em7  
There we were on the Sunset Strip  
A7   Em7  
Playing our songs for the highest bid  
D                                   A  
We played all night  
D                                   A  
The price was right

||: A/G           G       :||

D                    A  
Don't be denied  
D                    A  
Don't be denied  
A7                    Em7  
Don't be denied  
A7                    Em7  
Don't be denied  
D                    A  
Don't be denied  
D                    A  
Don't be denied

||: A/G        G        :||

D                    A  
Well, all that glitters isn't gold  
D                    A  
I know you've heard that story told  
A7                    Em7  
And I'm a pauper in a naked disguise  
A7                    Em7  
A millionaire through a business man's eyes  
D                    A  
Oh, friend of mine  
D                    A  
Don't be denied

||: A/G        G        :||

D
