**Recording Technology and Music Production:**

Gene Crout is a professional Audio Engineer and Producer with over 15 years experience in Avid ProTools, has worked in multiple MIDI and digital audio workstations (DAWs) on the MAC and PC and has produced for Commercial CDs, TV and Radio Broadcast, Film and the Web.

- Learn how to design and setup your own home studio on virtually any budget or how to use and get the best sound from the gear you already have.
- Learn proper gain staging, microphone and direct recording techniques, acoustic treatments and more.
- Learn how and why things like Compression, Equalization (EQ), Reverb, Modulation, Delay and other effects are used.
- Understand what MIDI is, how it works, and all the amazing things it can do for even smallest studio.

---

**From Miking to Mastering, Gene Crout can teach you  
everything you need to know to produce professional  
sounding recordings!**

---

**3 things to know and look for when choosing a  
private instructor.**

1. People learn best when they are in a comfortable, safe environment with an instructor they like and can relate to. Choose an instructor who wants to teach what you want to learn!
2. Almost anyone can call themselves a guitar teacher - choose a degreed professional with real experience in the industry. Gene Crout is a full time, professional musician dedicated to inspiring you!
3. Flashy websites and fancy business cards don't teach you how to play guitar - Gene Crout does!!
